Greetings from Monika Rao Singh's Consultancy!

I am happy to introduce my Solopreneur Consultancy, focused on designing effective and outcome-oriented learning journeys. With a progressive career spanning over 23+ years, including a meaningful 7-year stint in the financial sector—my transformative journey into learning and facilitation began in 2009. It started with a simple yet powerful intent: to cherish every human life and create value in every conversation.

Over the past 16+ years of this journey, more than **107,000 participants across the globe** have benefited from a wide range of training and coaching interventions..

What makes the learning journey so unique and different for the clients, with my “Solopreneur consultancy”, is the seamless continuity it offers to the stakeholders & delivery to the target audience by the same person leaving all the communication gaps out of the system.

The curiosity of going beyond what is given – the power of “AND” makes the engagement powerful.

I specialize in Team Coaching for systemic change, working with real team dynamics rather than isolated individuals. Psychodrama-based methods surface the unspoken and enable collective insight. MBTI®, TA, and EI tools support clarity, shared language, and sustained behavioural change.

As a firm believer in **“People with Possibilities,”** I hold the perspective that achievement is not a matter of *if*, but *when*—it’s simply **“not yet.”**

This belief enables me to work with clients at a neuroplasticity level, helping them reframe limitations, build new neural pathways, and unlock sustainable growth.

Look forward to collaboration for empowering the biggest of your resources.

In gratitude
Monika
